

Fast, Easy and Convenient.

ORDERIT.CA

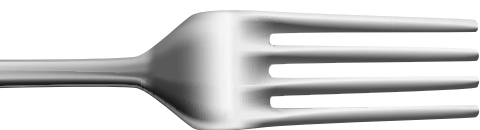

▶ GO ONLINE . . . TO DINE!

GREAT FOOD.
DELIVERED.

GROUPIT

What is it?

- ▶ If security and efficiency are of importance to you, Orderit's group meal solution (**GROUPIT**) enables aggregate ordering from a pre-selected restaurant each day in Toronto & Vancouver. Individual meals are delivered together at a pre-determined time(s)- eliminating multiple deliveries to your workplace. Employees can enter their order at any time throughout the day up to the "cut off time".
- ▶ An administrator from your company can set up designated users and set meal allowances through an easy to use set up wizard. Employees will then be sent emails with their passwords to gain access to a wide variety of restaurant menus based on the location of your company. Users can enter billing and accounting information; such as, case or matter number, department or cost centre for reporting purposes.

THE SMART WAY TO
ORDER FOOD ONLINE.

Key Features & Benefits

SIMPLIFY THE PROCESS

- ▶ **GROUPIT** allows your employees to place delivery orders from a terrific selection of restaurants in Toronto & Vancouver while the company pays only 1 single invoice with all relevant accounting and order details, dates, and times.
- ▶ Eliminate time and administration associated with tracking and processing reimbursement claims. Generate reports and track expenditures at the click of your mouse.

REDUCE COSTS

- ▶ Orderit saves your company money and time by streamlining the ordering process for users and prevents your company or employees from incurring multiple delivery costs or spending valuable time browsing through brochures and placing telephone orders.
- ▶ You have extensive budgetary control capabilities including the ability to set spending limits for users or set limits for them while permitting them to charge amounts over their daily meal allotment to their personal credit card.

ADD CONVENIENCE

- ▶ Restaurant selection changes daily for maximum variety and users receive email reminders to ensure that their orders are placed on time.
- ▶ Only authorized users may order, and deliveries are limited to one or two per evening- reducing the number of interruptions and intrusions by delivery personnel.
- ▶ The administrators have secure, real time access to information online for generating reports by criteria - including dollars spent, department, or date.
- ▶ Access the menu of a great selection of restaurants and caterers all through www.orderit.ca and delivered directly to you.
